RAK
CERAMICS

Focused on ceramics' expertise

RAK Ceramics is one of the largest ceramics' brands in the world. Specialising in ceramic and gres porcelain wall and floor tiles and bathroom products, the company has the capacity to produce 123 million square metres of tiles and 5 million pieces of sanitaryware per year at its state-of-the-art plants across the United Arab Emirates, India and Bangladesh.

Founded in 1989 and headquartered in the United Arab Emirates, RAK Ceramics serves clients in more than 150 countries through network of operational hubs its in Europe, Middle East and North Africa, Asia, North and South America and Australia. Across global operations the company employes approximately 12,000 staff from more than 40 nationalities. RAK Ceramics is a publicly listed company on the Abu Dhabi Securities Exchange in the United Arab Emirates and as a group has an annual turnover of approximately US\$1 billion.

Forged in the mountains of Ras Al Khaimah

RAK Ceramics was established in Ras Al Khaimah (UAE) in 1989 by H.H. Sheikh Saud Bin Saqr Al Qasimi, member of the Supreme Council and Ruler of Ras Al Khaimah, who aspired to have the best machinery, latest technology, and to produce the best products possible for sale in the world.

1991 - RAK Ceramics first factories

Latest technology and manufacture

RAK Ceramics is internationally recognized for the high quality of its sanitary ceramics. This quality comes from carefully selected premium raw materials that ensure a perfect finish of the products. Better ingredients, better sanitaryware!

At RAK Ceramics we are not just ceramic experts. We also manufacture seat covers, bathtubs, showertrays, furniture mirrors and accessories.

Quality makes us different

RAK Ceramics was the first company in United Arab Emirates being awarded with **ISO 9001 certification** by internationally recognized UK certification body “CICS” (Ceramic Research Institute Certification Scheme) for ceramics tiles and sanitary wares. Bureau Veritas Certifications verified the implementation of RAK Ceramics’ quality management system and certified the company in compliance with the requirements of **ISO 9001:2015** with the scope covering the design, development, production and supply of ceramics and porcelain floor and wall tiles, slabs and vitreous china sanitary wares.

Bureau Veritas Certifications also certified RAK Ceramics for **ISO 14001:2015 Environmental Management System**.

Every phase of the RAK Ceramics sanitaryware production process counts on strict quality control procedures. The leadership in the GCC Region and the strong presence in several other international markets reflect our everyday efforts. Our internal Norms comply and exceed the international requirements in terms of quality and performance.

Its Testing Laboratory is operating in accordance to **ISO/IEC 17025** accredited by NATA (National Association of Testing Authorities, Australia).

Global approvals & standards

RAK Ceramics Sanitaryware production is accredited with the world's most reputable certification entities. With national and international certifications for product and processes, RAK Ceramics not only complies to the requirements, but often exceeds the most stringent international standards. Our own severe water/air product testing is performed on the 100% of WC & Bidet production. Only complying products are labeled with our QC sticker: a seal of quality and performance!

We play our role for a better environment and society

Sustainability in every sphere of business is one of the main elements of RAK Ceramics mission statement. The company is committed to practicing environmental stewardship throughout its manufacturing chain – from product design and efficient operations processes – and to playing an active role in building a better community by enhancing the surrounding environment. Organization's activities improve energy efficiency, reduce pollution, enhance biodiversity and improve the quality of life for both people in the communities it operates in and for its workforce. It recycles natural raw materials to help conserve natural resources and adopts clean development mechanism (cdm) projects to reduce carbon emissions during the manufacturing process.

RAK Ceramics is the first ceramics manufacturing company in its region to produce a global reporting initiative (GRI) sustainability and corporate social responsibility (CSR) report, based on the latest GRI-g4 guidelines. RAK Ceramics is a founding member of Emirates Green Building Council, which supports the development of sustainable buildings in the UAE.

FROM RESPONSIBLE SOURCES FSC® CERTIFIED

The RAK-JOY wooden furniture collection respects the environment and the life of the furniture itself. All particleboard and MDF used in the construction of this striking furniture collection comes from responsible sources FSC certified, respecting the forests, the people and wildlife who call them home.

The world's leading ceramics lifestyle solution provider

RAK Ceramics helps architects and interior designers create icons and build marvels. It provides sustainable materials that inspire ideas, shapes and hues designed to freely express any style. Unique and inspiring products that realistically resemble natural materials, with unlimited choice.

RAK Ceramics gives porcelain perfection and limitless imagination. Its passion and expertise combined with a careful attention to details enables it to provide designers and end users with a wide range of integrated ceramics solutions, allowing their freedom to be creative and plenty of room for imagination.

A track record of expertise

RAK Ceramics' products feature in some of the most iconic buildings in the world. From the Burj Al Arab, Atlantis on The Palm and Ferrari World, to Dubai Duty Free, Wembley Stadium, The O2 Arena, Mercedes Benz Showrooms, Airports, Residential Developments and Shopping Malls all over the world.

design

RAK
CERAMICS

Quality design for international tastes

RAK Ceramics product development has created a very wide range of products with carefully finished details and quality design to suit international tastes, incorporating the latest rimless technology.

Carefully designed and engineered with the aid of the latest 3D CAD softwares and prototyped with 5 axis CNC machines, RAK Ceramics Sanitaryware range has the perfect solution for your bathroom, whatever you have imagined.

Rimless technology

RAK Ceramics delivers the ultimate in technology for bathroom suites. Based on similar design specifications to sanitaryware in hospitals and medical centres, RAK Ceramics Rimless water closets allows you to experience the same high standards of hygiene in your own home.

RAK Ceramics continues to set new standards of hygiene and water efficiency in the sanitaryware industry, with uniquely engineered water flushing systems that effectively remove waste, helping to keep bathrooms fresh and hygienic.

WATER SAVING

Using just 4 litres for the full flush and 2.5 litres for the half flush, water usage is reduced by a third.

HYGIENIC AND EASY TO CLEAN

The water closets have no rims to harbour germs, making cleaning quick, easy and more hygienic.

SILENT FLUSH

Rimless technology allows a faster and more silent flush.

EFFICIENT DESIGN

Design and efficiency can be successfully combined. Water flows vertically and horizontally, before flushing the entire inner surface of the bowl, without splashing.

Water Saving

Easy Cleaning

Silent

Hygienic

No ledges or rim

Rimless

Updated ergonomics

Over the last 100 years, the average height of people in industrialized nations has increased approximately by 10 cm. To be innovative in design also means meeting the changes in population and their new needs in terms of ergonomics and comfort. RAK Ceramics design evolves together with human evolution.

Hidden fixation systems

Our wall hung and back to wall products are benefitting from the collaboration with Fischer Group, one of the industry leaders. The use of the most innovative Fischer fixing systems, is allowing us design freedom on the ceramic, better aesthetics and more safety for the installer.

The Hidden Fixation System is comfortable and time saving, in fact one-man installation is made possible by the clip system that keeps the ceramic held up during the installation.

RAK-Sanit A new standard for hygiene

RAK-Sanit solutions for your bathroom are produced with RAK-ProTeK, the innovative ceramic glaze developed to protect wash basins, toilets and urinals, to make them more hygienic and easier to clean. RAK-ProTeK, which is baked into the ceramic during firing, results to a smoother surface, unlike standard ceramic with irregular surface.

This feature allows the particles accumulating on the ceramic to easily slip away making cleaning more efficient and convenient.

The silver ions contained in this revolutionary glaze, kill 99.9% of bacteria in 24 hours and prevent the bacterial growth, in comparison to conventional ceramic glazing. RAK-ProTeK glaze has been tested by Artest laboratory from the Italian Ceramic district in Modena.

RAK-VALET

BATHROOM SUITES

Patrick Norguet creates a surprising new bathroom project for RAK Ceramics: RAK-Valet.

A set of visions, designs, exclusive shapes and fast rhythms that lead to unexpected solutions, a hallmark of Norguet's approach to each of his new creations. RAK-Valet represents all the creative genius of the French designer, combined with the reputation of Rak Ceramics for manufacturing quality and project completion. The collection consists of functional elements, that fully service the bathroom experience: a space that is increasingly the protagonist of every interior design project, residential or contract, a key environment for the harmony and character of each creation, classic or contemporary, but always unique.

Design by Patrick Norguet

Patrick Norguet is an essential figure on the international design scene.

After completing his design studies at the ESDI, Patrick Norguet was commissioned to design the display windows of two major players in the luxury industry: Yves Saint-Laurent and Louis Vuitton. From these experiences, he gained an understanding of brand identity and the way of showcasing it. Designing Renault's event stands helped him to hone and apply his synthesis skills to ephemeral architectures.

In 2000, his Rainbow Chair, noticed and produced by Giulio Cappellini, gave him visibility that quickly spread thanks to the international media. He then opened his studio in Paris. His early furniture collections for Bernhardt, Artifort, Offect, Capdell or the French companies Alki and Tolix validated and established his presence at international shows. In 2010, designing one McDonald's restaurant in France gradually led to a collaboration with McDonald's Global. Patrick Norguet has become an emblematic figure of French design.

Alias, Arflex, Artemide, Cassina, Emu, Ethimo, Glass Italia, Kristalia, Lea Ceramica, Pedrali, de Padova, and Tacchini quickly recognized his talent and authority and fully involved him in the production process and strives to create long-lasting collections. Drawing inspiration from everything that surrounds him, Patrick Norguet does not follow trends but seeks to give shape to products whose relevance and modernity would withstand the test of time: "A well-designed object, an object created through generous collaboration is timeless."

P. Norguet

RAK-CLOUD

Fluid lines inspired by geometric swirls combined with changing shapes like clouds lend themselves to multiple interpretations and play with light, producing a soft enveloping effect, culminating in a sophisticated but at the same time functional and welcoming bathroom. RAK-Cloud is available in Back to wall, or wall-hung sanitaryware, elegant freestanding bathtubs and washbasins.

Design by Giuseppe Maurizio Scutellà

Giuseppe Maurizio Scutellà was born in Alcamo, Sicily. His collaboration with RAK Ceramics begins with RAK-Cloud (2018), a project that continues the creative thinking of the Italian designer and that integrates perfectly with his other projects such as the collection of lamps "Pirce" by Artemide (Good_Design 2008, Red Dot Award 2009, IF Design Award 2010) and the "Metropolis" collection of crystal and ceramic tables by Tonelli Design.

"I like to talk with the soul of all my projects, discover its history and capturing the most hidden hues of its character, respecting its nature and embracing its languages. It is my way of approaching its magical essence and becoming its interpreter".

Giuseppe Maurizio Scutellà

RAKSOLID: DESIGN AND FUNCTIONALITY

راكسوليد: التصميم والتطبيقات

RAK-Cloud bathtubs are made of RAKSOLID, a durable material composed of a mixture of natural minerals and resins. The elegant matte white finish gives a distinctive feel to the bathing area, as well as a pleasant to the touch and more anti-slip safety.

راك-كلاود، لأحواض الاستحمام مصنوعة من مادة متينة تتكون من خليط من المعادن الطبيعية والراتنجات. يمنحك اللون الأبيض اللامع الأنيق مظهراً مميزاً لمنطقة الاستحمام، بالإضافة إلى الشعور باللمس اللطيف والمزيد من شروط السلامة المقاومة للانزلاق..

BATHROOM
SUITES

RAK-DES

RAK-Des is a new concept bathroom suite that pays tribute to the Bauhaus school by which it is inspired, on the occasion of the centenary of its foundation (1919). RAK-Des includes bowls and freestanding washbasins with the essential minimalist lines. The rectangular washbasins of this collection can be installed suspended, individually, or combined with the RAK-Joy vanities.

Touchless flushing

Enjoy the same hands-free, germ-free experience of commercial restrooms. With the new RAK Ceramics Touchless Flushing System, this same ease of use and minimal spreading of germs has finally expanded to home use toilets. A sensor module placed underneath the toilet's cistern lid runs on four AA batteries. It utilizes emerging sensing technology, which projects an electromagnetic field that is both extremely accurate and reliable.

This type of sensor detects the user in the projected field and initiates the dual flush: 6 liters keeping the hand above the spot, or 3 liters waving the hand.

DUAL FLUSHING:

Still hand above the indicated spot for *full flush*.

Waving hand above the indicated spot for *half flush*.

Technical Information:

Sensor area is within 40mm~60mm from the surface of the cistern lid; effective diameter of the sensor area is within 100mm.

Battery life: around 2 years for family use, and 1 year for commercial using.

Override lateral push button in case of failed battery.

RAK-ILLUSION

Amazement is a great sensation of wonder, brought by something unexpected. This is exactly the base of RAK-Illusions' design. Lines so light it creates an impression of suspension, its surprising details and unique character can make the bathroom a magical and unexpected place. RAK-Illusions is available in Back to wall, or wall-hung sanitaryware, elegant freestanding and washbasins.

RAKSOLID: DESIGN AND FUNCTIONALITY

راكسوليد: التصميم والتطبيقات

RAK-Washington bathtubs are made of RAKSOLID, a durable material composed of a mixture of natural minerals and resins. The elegant matte white finish gives a distinctive feel to the bathing area, as well as a pleasant to the touch and more anti-slip safety.

راك-واشنطن لأحواض الاستحمام مصنوعة من مادة متينة تتكون من خليط من المعادن الطبيعية والراتنجيات. يملحك اللون الأبيض اللامع الأنيق مظهراً مميزاً لمنطقة الاستحمام، بالإضافة إلى الشعور باللمس اللطيف والمزيد من شروط السلامة المقاومة للانزلاق..

PLEASANT TO TOUCH
لمس ناعم

RAK-PETIT

RAK-Petit is the second chapter of the successful collaboration with Maurizio Scutellà. A transversal collection of small washbasins designed for architects and interior designers who address the theme of small spaces: with minimal shapes and small dimensions, RAK-Petit is perfect for small but special bathrooms and for furnishing elegant public spaces. freestanding washbasins for representative or public bathrooms.

Design by Giuseppe Maurizio Scutellà

Giuseppe Maurizio Scutellà was born in Alcamo, Sicily. His collaboration with RAK Ceramics begins with RAK-Cloud (2018), a project that continues the creative thinking of the Italian designer and that integrates perfectly with his other projects such as the collection of lamps "Pirce" by Artemide (Good_Design 2008, Red Dot Award 2009, IF Design Award 2010) and the "Metropolis" collection of crystal and ceramic tables by Tonelli Design. RAK-Petit is the second concept developed together with RAK Ceramics (2019).

"I like to talk with the soul of all my projects, discover its history and capturing the most hidden hues of its character, respecting its nature and embracing its languages. It is my way of approaching its magical essence and becoming its interpreter".

RAK-VARIANT

Round, oval, square... what's the shape of your freedom? Feel free to design, free to explore new solutions for your bathroom project, free to imagine. RAK-Variant featuring countertop, drop-in and under counter washbasins. Different shapes and different sizes with or without tap bank. Made from high-quality ceramic in 5mm thickness.

Design by Daniel Debiasi and Federico Sandri

Daniel Debiasi and Federico Sandri founded their own design studio in 2010 and work within various fields of design, ranging from objects to spaces. Multiple experiments and the relationship between manufacture and craftsmanship form the basis for a much broader thinking, where objects are always considered as part of a bigger picture. They have created work for Antoniolupi, Lema, Ligne Roset, Normann Copenhagen, Offecct, Rosenthal, Stelton, Villeroy & Boch among others. Many of their projects have received international design awards and are featured in publications worldwide. In addition to their work as designers, they regularly teach, hold workshops and lectures at various institutions including IUAV Venezia and Politecnico di Milano. Together with Rak Ceramics, Daniel Debiasi and Federico Sandri present the project RAK-Variant (2019).

We play our role for a better environment and society

Sustainability in every sphere of business is one of the main elements of RAK Ceramics mission statement. The company is committed to practicing environmental stewardship throughout its manufacturing chain – from product design and efficient operations processes – and to playing an active role in building a better community by enhancing the surrounding environment. Organization's activities improve energy efficiency, reduce pollution, enhance biodiversity and improve the quality of life for both people in the communities it operates in and for its workforce. It recycles natural raw materials to help conserve natural resources and adopts clean development mechanism (cdm) projects to reduce carbon emissions during the manufacturing process.

RAK Ceramics is the first ceramics manufacturing company in its region to produce a global reporting initiative (GRI) sustainability and corporate social responsibility (CSR) report, based on the latest GRI-g4 guidelines. RAK Ceramics is a founding member of Emirates Green Building Council, which supports the development of sustainable buildings in the UAE.

FROM RESPONSIBLE SOURCES FSC® CERTIFIED

The RAK-JOY wooden furniture collection respects the environment and the life of the furniture itself. All particleboard and MDF used in the construction of this striking furniture collection comes from responsible sources FSC certified, respecting the forests, the people and wildlife who call them home.

MATERIALS

المواد

LAMILAK

TECHWOOD

LAMILAK is the new gloss material that exudes consistent quality and performance. The brilliant high gloss shine gives a striking smooth surface final appearance. To protect the environment, LAMILAK is produced from PET recyclable material.

TECHWOOD is the new wood effect material that gives the tactile impression of real wood. Revel in the touch and feel of its vibrant texture. To protect the environment, TECHWOOD is produced from polypropylene recyclable material.

لاميلاك هي مادة اللامعان الجديدة التي تلضخ بجودة وأداء متسقين، يعطي اللامعان الشاهق ومظهرًا نهائيًا ناعمًا للسطح. لحماية البيئة، يتم إنتاج لاميلاك من مادة PET القابلة لإعادة التدوير.

تكنو وود هي مادة جديدة ذات تأثير خشبي تعطي الطباعا ملموسًا بالخشب الحقيقي. استمتع بلمسة وإحساس قوامه اللامع بالحياة. لحماية البيئة، يتم إنتاج تكنو وود من مادة البولي بروبيلين القابلة لإعادة التدوير.

RAK-PLANO

RAK-Plano countertop surfaces combine elegance, durability and practicality, transforming your RAK-Joy or RAK-Joy Uno vanity unit into one of the most versatile accessories at the service of your design projects. Available in 3 different TECHWOOD finishes and in our innovative matt white RAKSOLID material. RAK-Plano is a one-piece vanity top, without joints that can be drilled and cut (if necessary) directly on site, allowing you the greatest freedom in positioning the washbasins and mixers.

RAK-PLANO MATERIALS

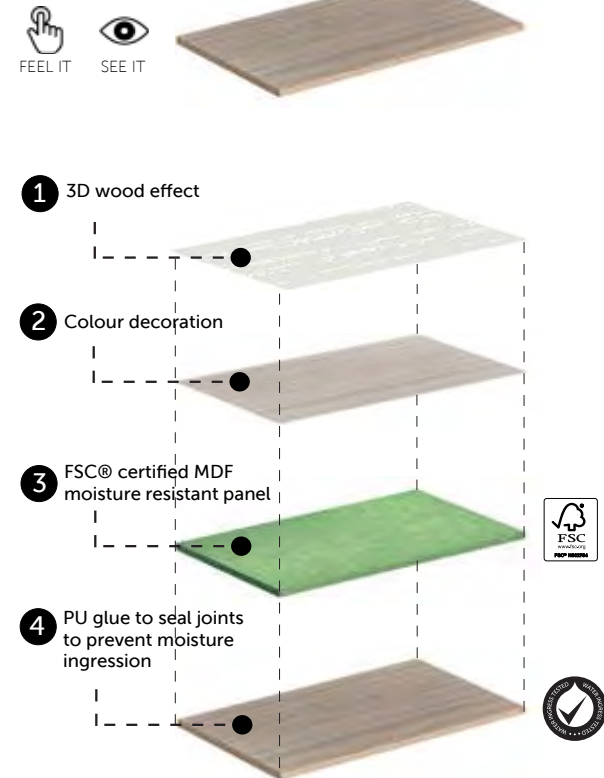

RAKSOLID

RAKSOLID is the new durable solid surface material, composed of a mixture of natural minerals and resins. It exudes consistent quality and performance. The elegant matte white finish gives a distinctive feel to the vanity surface and it is pleasant to the touch.

راك صوليد هي مادة صلبة متينة جديدة للسطح، تتكون من مزيج من المعادن والراتنجات الطبيعية، إنها تنضج بجودة وأداء متسقين، يعطي اللون الأبيض الأنيق غير اللامع إحساساً مميزاً للسطح الخزني وهو ممتع اللمس.

TECHWOOD

TECHWOOD is the new wood effect material that gives the tactile impression of real wood. Revel in the touch and feel of its vibrant texture. To protect the environment, TECHWOOD is produced from polypropylene recyclable material.

تيك وود هي مادة جديدة ذات تأثير خشبي تعطي انطباعاً ملموساً بالخشب الحقيقي. استمتع بلمسها الناعم بالحياة، لحماية البيئة، يتم إنتاج تيك وود من مادة البولي بروبيلين القابلة لإعادة التدوير.

RAK-PLANO FREEDOM OF INSTALLATION

THE MOST VERSATILE AND ELEGANT SOLUTION FOR YOUR VANITY TOP

الحل الأكثر تنوعًا وأناقة لسطح وحدة الموبيليا الخاص بك

With RAK-Plano you have the freedom to choose how and where to place your sink and mixer, thanks to the possibility to cut and drill the top during the installation, if necessary.

* the picture refers to the installation of RAK-Plano on RAK-Joy Uno vanity unit.

مع راك-بلانو لديك الحرية في اختيار كيفية ومكان وضع الحوض والخلاط ، وذلك بفضل إمكانية قص وحفر الجزء العلوي أثناء التثبيت ، إذا لزم الأمر.
* تشير الصورة إلى تركيب راك-بلانو على وحدة الموبيليا راك-جوي أونو.

RAK-PLANO CUSTOMIZATION

RAK-Plano surfaces made of RAKSOLID, are easy to cut and drill during the installation. The cut can easily be carried out on site by the installer, with common wood tools. RAK-Plano gives you the possibility to install the washbasin and the faucets in your favorite position and offers you the chance to change your mind onsite (before drilling) and to revise your project if needed.

أسطح راك-بلانو مصنوعة من راك-سوليد، من السهل قطع وحفر أسطحها خلال التثبيت. يمكن إجراء القطع في الموقع بسهولة بواسطة المثبت باستخدام أدوات خشبية مشتركة. يمنحك راك-بلانو إمكانية تركيب حوض الغسيل والحنفيات في وضعك المفضل ويوفر لك فرصة لتغيير رأيك في الموقع (قبل الحفر) ومراجعة مشروعك إذا لزم الأمر.

RAK-FEELING SHOWER TRAYS

SHOWER
TRAYS

RAK-Feeling is made of RAKSOLID, a durable material composed of a mixture of natural minerals and resins. The elegant matte finish with stone effect gives a distinctive feel to the shower area, as well as a pleasant to the touch and more anti-slip safety.

RAK-Feeling shower trays can be installed flush to floor, semi-recessed or directly onto the floor.. RAK-Feeling products are ideal for both new buildings and renovations, thanks to the minimum dimensions of 5.8 cm required under the shower tray for the waste.

يمكن تركيب أحواض الاستحمام المسطحة راك-فيلينك مثبت داخل الأرض أو في تجويف جزئي أو على الأرض مباشرة.. وتعد منتجات راك-فيلينك مثالية للمباني الجديدة والمعاد تجديدها على حدٍ سواء، بفضل الأبعاد الصغيرة البالغة ٥.٨ سم واللازم توافرها أسفل حوض الاستحمام لتجميع النفايات.

INSTALLATION VARIANTS | تركيب متعدد الاستخدامات

FLUSH TO FLOOR | مثبت داخل الأرض

REPAIR
قابلة للإصلاح

RAK-Feeling is only 3cm thin and its surface inhibits the growth of bacteria and fungi to ensure greater safety and hygiene. All the shower trays feature excellent resistance to chemical products. This is confirmed by the strictest chemical resistance tests required by the EN 14527 standard. They are not affected by exposure to light. This is confirmed by xenon arc lamp tests, which simulate sunlight on shower trays and verify the effects of ageing (EN ISO 4892 standard). Our RAKSOLID material meets the highest safety standards, being classified in DIN 51097 Class C (the highest achievable level of slip resistance). It prevents slipping on surfaces with an inclination angle of more than 24°. In the event of chips and scratches, shower trays can be restored to their original condition using a special repair kit.

يبلغ سمك راك-فيلنج ٣ سم وسطحه مقاوم لنمو البكتيريا والفطريات لضمان مزيد من الصحة والسلامة. جميع أحواض الاستحمام مزودة بطبقة مقاومة ممتازة للمواد الكيميائية. ويتأكد ذلك من خلال اختبارات المقاومة الصارمة للمواد الكيميائية التي يتطلبها معيار EN 14527. ولا تتأثر بتعرضها للضوء. حيث يتأكد ذلك من خلال اختبارات مصابيح الزينون القوسية، التي تحاكي ضوء الشمس على أحواض الاستحمام مع التحقق من آثار التقدم (معيار EN ISO 4892).

كما تطابق مادة راك-سوليد أعلى معايير السلامة، والمصنفة ضمن الفئة دي إي إن ٩٧٠١ (أعلى مستوى يمكن تحقيقه من مقاومة الانزلاق)، فهي تمنع الانزلاق على الأسطح بزاوية ميل تزيد على ٢٤ درجة. وفي حالة التعرض للتنشيط والخدوش، يمكن إعادة أحواض الاستحمام إلى حالتها الأصلية باستخدام مجموعة إصلاح خاصة.

**FLUSHING
SYSTEMS**
أنظمة التنظيف

Can we save water in our bathrooms?

One of the easiest ways to save water is to install a toilet with a dual-flush cistern. Dual-flush cisterns let the user choose how much water to use when flushing the toilet and they are designed for wall-hung, back-to-wall and close coupled water closets.

RAK Ceramics flushing systems, allow you to choose using the full flush or the half flush, with different flushing volumes: 6 Liters for the full and 3 Liters for the half flush. The cisterns can also be adjusted to flush with a reduced full flush volume at 4.5 Liters.

For countries with limited water resources, RAK Ceramics has developed innovative water closets perfectly flushing with a reduced 3 Liters single flush.

By using a lower volume of water to flush the toilet you can dramatically reduce your annual water consumption.

DUAL FLUSHING:

 Or  Large button for full flush.

 Small button for half flush.

RAK-ECOFIX

RAK-Ecofix Flushing systems by RAK Ceramics are the ideal solution for all types of hydro-sanitary systems. Invisible built-in flushing systems combine functionality and aesthetics, saving space in every bathroom. The new and elegant push plates integrate perfectly with any style and design of dual flush systems to reduce water consumption.

SENIOR NEEDS
احتياجات كبار السن

RAK-SILVER

Just a few small changes are enough to turn your bathroom into a safe environment, even if you are in your twilight years or have limited movement. The RAK- collection has been created by RAK Ceramics to provide safety, functionality and comfort at any age, with essential features to ensure total independence and autonomy in your bathroom, without sacrificing on style.

Improve your bathroom in 6 easy steps

1. Make your toilet more comfortable, choose a H 45cm WC comfort height
2. Replace your bidet with a spray douche (shataff)
3. Install quality design grab bars
4. Replace your bathtub with a walk-in anti-slip shower tray
5. Install a comfortable and safe shower seat in your shower
6. Organise your medicinal products and first aid kit in capient and functional cabinet mirrors and furniture storage

Waterless urinal

RAK-Venice is a urinal perfectly functioning with no use of water: we call it Waterless.

RAK Ceramic's Waterless system is unlike any other dry valve in the market, helping to: eliminate restroom odors, provide the most robust flow rate, make maintenance and clean up easier, and provide a more hygienic solution in the restroom. The maintenance of our Waterless system is easy and fast, the green visual indicator is made of biodegradable ingredients that inform when it's time to change out your cartridge (approx. 7500 uses).

SEAT COVER WITH BIDET FUNCTION

YFGMBD01

Dimension: 500 mm x 370 mm x 60 mm

الأبعاد: ٥٠٠ ملميمتر × ٣٧٠ ملميمتر × ٦٠ ملميمتر

- European Style Wrap over seat and cover
- Slim design, with thickness of only 60mm
- Both functions of bidet wash enabled
- Flush lever can be rotated to adjust and control wash
- One-button style quick-release and installation function, easy and convenient

- Seat mounting range: A=452/22mm; B=155/19mm/203/19mm
- Adjustable flush volume mechanism
- Top / Bottom mounted, slow close and noise free
- Self-cleaning Nozzle
- Universal hinge applied, wide adaptability enabled

- ب = ١٩/١٥٥ ملم / ٢٠٣/١٩ ملم
- آلية كمية الدفق القابلة للتعديل
- تثبيت علوي / وسفلي، غلق بطيء وبدون إحداث إزعاج
- فوهة تنظيف ذاتي
- تم وضع مفصلات متكاملة، مع إمكانية كبيرة للقدرة على التلاؤم

- مقعد وغطاء مغلف على النمط الأوروبي
- تصميم رفيع بسماك ٦٠ ملميمتر فقط
- جميع خصائص الغسيل بالشطافة ممكنة
- يمكن تدوير رافعة دافق الشطف لضبط الغسيل والتحكم فيه
- نمط الزر الواحد وسرعة التدفق وعملية تركيب سهلة ومريحة
- مجموعة تثبيت المقعد، تثبيت المقعد: أ = ٤٥٢/٢٠٣ ملم
